Product List

Callearo identifies the part number of the Product with 756xxxx, where the combination of xxxx identifies the single product depending on:

- Customer, same component have different part number for different customers; same component have different external covers or/and different fixing system for different customers.
- Market area, same component can have different part number depending on the sales world area.
- Packaging (box, carton, pallet), same component can have different part number depending on the sales unit, packaging and customer plant. Parts moving by the sea should have different packaging respect parts moving by truck or by flight.
- Standard series, after market and spare parts. The same component may have different customer part number.

The difference between the families has not impact on the radio behavior of the products.

The most representative part number of all the P/N 756xxxx is the following:

Project	Customer p/n	Callearo p/n
M145/M156	342119	7560268
M145/M156	342120	7560269

The reference part number is the most complete since includes all the functions implemented in the other P/N of the family, implemented using the same reference design but for different customers or reduced set of functions. For more details please see the family technical file
